Our fences are available in a variety of COLORBOND® Steel double sided colours. Revolution by Design fencing materials are manufactured to length and our new and exclusive bracket technology ensures easy, hassle-free installation.

No matter what style of home you have or colour you want, we have the styles and options to give you the look you want.

## CORRUGATED FENCING

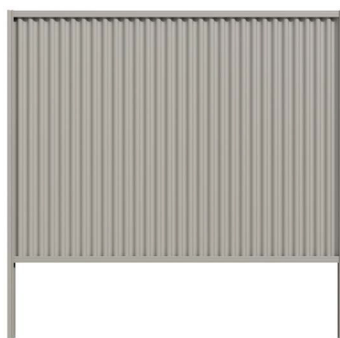

Corrugated fencing strikes a balance between functionality and style, making it a popular option in contemporary fencing solutions. Offering durability and strength from the distinctive ridged design, corrugated fencing is available in horizontal and vertical applications. With minimal maintenance and hassle-free installation, options include Revolution by Design's exclusive **True Oak Mid 10mm and Shallow Corrugated 16mm** profiles.

Corrugated fencing is the perfect option for privacy, security, and noise reduction, making it a versatile choice for residential and commercial applications.

# VICTORY STOCKADE FENCING

Combining modern design with functionality, the Victory Stockade Fence creates a sleek and contemporary look for properties. Horizontal slats provide a clean and sophisticated appearance offering enhanced privacy without compromising airflow and light.

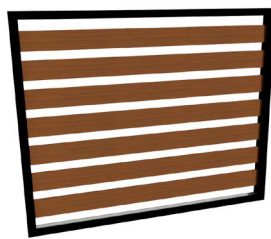

Victory Stockade Fencing comes in variable slat and gap widths. **Slat options include 60, 70 or 90mm widths with a gap space of 5, 10 or 20mm.** Engineered for simplicity, our unique market leading custom gap calculation can also provide you with a slat fence unique to your specifications.
